MORNING KEYNOTE: Paul Long, National Speaker
“Connecting the Workplace and Life Through F.U.N.”
Our Board has taken the vision of a few members at last year’s symposium to develop an innovative, next level symposium for this year. It is centered on three important tenants: COLLABORATION. CONNECTION. COMMUNITY.

COLLABORATION.
We have had a lot of help from other regional healthcare associations and companies in the preliminary preparation and development of this event. Everyone has pitched in with their creativity and expertise to find speakers or support our efforts through sponsorships to cover some new aspect of this event. We find there is great interest and synergy around making this happen to benefit the WHOLE of Kansas City and the surrounding region. Through these collaborative efforts we have arranged high quality educational content for the day. Joining with Northwest Missouri MGMA is our sister chapter Greater Kansas City MGMA, Kansas City Metropolitan Physicians Association (KCMPA), and American Academy of Professional Coders KC (AAPC). Many other companies have already offered sponsorship in some form, and Kansas City Healthcare Academy and League of Healthcare Experts has pulled together the speakers for the MGMA chapters. You can find a complete list of confirmed speakers at the “Kansas City Healthcare Community Symposium” webpage. We have planned a wide variety of topics to be shared by the best of the best speakers. It will be an amazing day of networking, learning and sharing.

CONNECTION.
An important focus of the day is to encourage professional networking, so that everyone gains from the interaction of new and known healthcare managers, coders, staff and exhibitors. It will be an amazing day of connecting and sharing as we learn together. We hope that you will consider attending with others from your practice, as well as from other associations across the state and beyond. This event gives us the possibility of broadening our view, expanding our reach, and gaining new perspectives.

COMMUNITY.
Each organization involved in the symposium ultimately wants to create a sense of community for their members. We are passionate about the exciting things that we have going on within NWMO MGMA and that wouldn’t be possible without each one of you contributing in some way to our success. If you take our commitments and multiply that by the efforts of the collaborating organizations, you can only imagine the sense of community we will experience at this event. You don’t want to miss this chance to connect and share ideas with so many local professionals in healthcare.

In the below link and next page is information just released for the September 25, 2019 Healthcare Community Symposium.

Right now you can register at the Early Bird rate, online or via credit card or check. NWMO is hosting a new webpage where online registration is available with easy access with one click. https://nwmomgma.wildapricot.org/Symposium/
Here is why we are involved in this new collaborative event!

Our Board has worked very hard this past year to build Greater Kansas City MGMA to a thriving organization that centers around three tenants: PEOPLE. PROGRAMS. PASSION.

PEOPLE.

We have been thrilled to see old and new members coming back to our chapter and getting actively involved in our association. And now we reach out to participate in a collective new venture. We trust that this collaboration of associations and many people will create amazing content and information at this year’s symposium.

PROGRAMS.

GKC MGMA has been working to provide quality content for GKC members every month. Now we join forces with NWMO MGMA, AAPC of KC, KCMPA, as well as KCHA and LHE to provide a “Kansas City Healthcare Community Symposium” with only the best of the best speakers. It will be an amazing day of networking, learning and sharing and we hope that you will join us.

PASSION.

Lastly, we all are passionate about this new venture and all that can be accomplished through this collaboration. Come and share this passion with us on September 25th in Kansas City.

At right and on the next page is information for the 2019 “Kansas City Healthcare Community Symposium”. You can register at the “Early Bird” rate online or via credit card/check, and take advantage of discounts when bringing a second, third, or fourth person from your practice. Thanks in advance to everyone who sees the benefit of an event like this and attends to make it a success! I look forward to seeing you at Holiday Inn Airport KCI Expo Center in September!

Jennifer
